

Satish Vattikuti - A full stack Javascript web developer

I am a full stack Javascript web developer. I have spent the past one year learning about web development. I specialize in designing web applications. My strengths in front-end include HTML, CSS, React, Redux, Bootstrap. My strengths in backend include Node.js and express. I also have worked with Mongo Db for databases.

I have a masters and bachelors degree in Computer Science and Engineering. I am also familiar with the algorithms and basic memory management programming languages. I have implemented all the data structures like Arrays, stacks, queues, trees, graphs and LinkedLists.

Hard-working web developer with a flair for creating elegant solutions in the least amount of time. Developed an ecommerce webapp, customer web portal, documentary launch website, and donations webapp for a local charity. Passionate about software architecture and cloud computing. Regular attendee of web developer meetups and hackathons.
